OBJECTIVE

AWS Certified Cloud Practitioner and AWS Certified Solutions Architect – Associate, final-year B.Tech CSE (AI&ML) student with hands-on experience in AWS services and Python. Seeking an entry-level role in Cloud Computing or DevOps to architect scalable, automated, highly reliable cloud solutions while advancing technical skills.

EDUCATION

B.Tech in CSE (AI&ML), Aditya Institute of Technology and Management, Tekkali **Expected 2026**
CGPA: 9.16/10 AP, India

Diploma (ECE), Aditya Institute of Technology and Management, Tekkali **2020 - 2023**
Percentage: 89% AP, India

SKILLS

Programming Languages	Java, Python, HTML, CSS
Frameworks	Django, FastAPI, LangChain
Generative AI	Prompt Engineering, RAG, LLM Applications, AI Agents
Databases	MySQL
Developer Tools	Git/GitHub, Google Colab, VS Code, Postman
Cloud Platforms	AWS (EC2, S3, DynamoDB, SNS, IAM, CloudWatch)
Academic Coursework	Data Structures, Operating Systems, CN, OOP, DBMS
Certifications	AWS Certified Cloud Practitioner (CLF-C02), 2025 AWS Certified Solutions Architect – Associate (SAA-C03) OCI 2025 AI Foundations Associate (1Z0-1122-25) AWS Academy GenAI & Cloud Foundations (View)

EXPERIENCE

SmartBridge | Cloud Practitioner Intern | Remote **May 2025 - July 2025**

- Completed 30+ hours of AWS training, applying EC2, S3, DynamoDB, SNS, and IAM to build scalable and secure cloud solutions.
- Implemented real-time notifications using Amazon SNS and automated monitoring with CloudWatch, reducing manual workload by 50%.
- Strengthened understanding of AWS global infrastructure, pricing models, security best practices, and service integrations.
- Developed a cloud-based photographer booking platform using AWS and full-stack technologies. ([Project Link](#))

PROJECTS

DeepShield – Hybrid Deepfake Detection System Built a real-time deepfake detection system using ResNeXt CNN and LSTM for spatio-temporal analysis. Trained on 6000+ videos and deployed a Django web app for high-accuracy classification with confidence scoring. ([Project Link](#))

AI Research Assistant – RAG-Based Multi PDF Conversational System Engineered a RAG-based AI research assistant using FastAPI, LangChain, Google Gemini, and FAISS for intelligent multi-document retrieval and conversational AI. Implemented vector embeddings, semantic search, prompt engineering, and context-aware question answering for real-time AI-powered document analysis. ([Project Link](#))

Arduino-Based Obstacle Avoidance Robot Designed and built an obstacle-avoiding robot using Arduino, ultrasonic sensors, and motor drivers, demonstrating hardware integration and system testing skills. ([Project Link](#))

EXTRA-CURRICULAR ACTIVITIES

- **Public Outreach Lead, Google Developer Groups (GDG) AITAM** – Spearheaded technical event promotions, developer engagement initiatives, and community-building activities focused on Google technologies across campus.
- **Google Student Ambassador (Gemini AI)** – Advocated AI adoption by promoting Google Gemini AI technologies and conducting awareness initiatives to encourage student engagement with emerging AI tools.
- **Student Coordinator – Promotions Lead, Avishkar Season 3** – Directed digital marketing campaigns, social media outreach, branding strategies, and promotional activities for a National-Level 48-Hour Hackathon.
- **Research Conclave 2025 Runner-Up – R&D Cell, AITAM** – Achieved Runner-Up position for presenting innovative research concepts and demonstrating strong analytical, technical, and problem-solving capabilities.
- **Research Conclave 2026 Winner – R&D Cell, AITAM** – Secured first place by delivering an impactful research presentation focused on innovation, technical excellence, and real-world problem-solving approaches.
